14. Risk Acknowledgement.

- (a) You acknowledge that currency trading, including but not limited to margined currency trading, is one of the riskiest forms of investment available in the financial markets and is suitable for institutions and sophisticated individual investors only. You acknowledge that FXTrade permits you to trade foreign currencies on a highly leveraged basis. You understand and acknowledge that depending on the amount of leverage you are using, even a small change in currency exchange rates could cause you to lose some or all of your entire investment. You acknowledge that you are aware of the risks of engaging in currency trading and that you have been given the opportunity, prior to trading currency using FXTrade, to first familiarize yourself with currency trading using FXGame. You acknowledge and agree that you shall use and access FXTrade at your own risk.
- (b) You acknowledge that you are solely and exclusively responsible for the control, operation and security of Transactions and communications made through your use of the FXTrade System.
- (c) You acknowledge that there are risks associated with utilizing an Internet-based deal execution trading system including, but not limited to, the failure of hardware, software, and Internet connections. You acknowledge that OANDA does not control signal power, its reception or routing via the Internet, configuration of your equipment or reliability of its connection, and OANDA shall not be responsible for any communication failures, disruptions, errors, distortions or delays licensee may experience when trading via the internet using the FXTrade System, howsoever caused.
- (d) You acknowledge that BoxOption Contracts carry a high degree of risk. You should familiarize yourself with the type of BoxOption Contract (i.e., BoxOption Hit Contract or BoxOption Miss Contract) which you contemplate purchasing and the associated risks. You may terminate a BoxOption Contract prior to maturity or allow the BoxOption Contract to mature. If the purchased BoxOption Contract matures worthless, you will suffer a total loss of your BoxOption Premium. If you opt to terminate your BoxOption Contract prior to maturity, you may none-the-less experience a loss, up to and including a total loss of your BoxOption Premium. If you are contemplating purchasing a deep-out-of-the-money BoxOption Contract, you should be aware that the chance of such BoxOption Contract becoming profitable ordinarily is remote.

15. Maximum Losses. OANDA warrants and represents that the FXTrade System has been designed so that:

- (a) Your total aggregate Realized Loss can never exceed the sum of the total aggregate deposits made to your Account and your total aggregate Realized Profit; and

At any time, in OANDA's sole discretion and without prior notice, OANDA may apply any or all of the Collateral to such indebtedness or other obligation, notwithstanding the circumstances under which such indebtedness or other obligation arose, including but not limited to circumstances where such indebtedness or other obligation arose in an account of yours other than the Account where the Collateral was held or generated.

19. **Set-off and Withdrawal by OANDA.** OANDA is entitled, and you hereby irrevocably authorize OANDA without notice to you, from time to time to deduct from and retain out of your Account and appropriate for OANDA's use any amount necessary in satisfaction of any Realized Loss and/or any other moneys then due and payable by you to OANDA under this Agreement or arising from any Trade or BoxOption Contract. Additionally, OANDA may, and you hereby irrevocably authorize OANDA without notice to you, from time to time to use the funds in your Account as margin collateral with OANDA's trading partners (each a "Bank"), only for the purpose of hedging OANDA's exposure in relation to your trading activity. You acknowledge that in the event of the failure or default of a Bank, OANDA's capital may not be sufficient to cover the entire loss of such margin collateral, and you agree to bear the risk of the uncovered portion of the loss in such case.
